Experience

Engineering Intern, Persico – Sterling Heights, MI (Intern and Co-op) June 2025 – Present

- Ported over entire services from old MS server VM's to **Ubuntu 24.02** VM's
- Replaced entire systems designed on sharepoint with **custom made Elixir** applications

Teacher, iCode – Novi, MI (Part time) April 2023 – June 2024

- Taught in depth courses on UE5 and its related **C++** scripting across various skill levels
- Produce weekly material that fits a set of criteria and make large ideas relatable, smaller ones that could be understood by my students and passed my superior

Insider, Jet's Pizza – Plymouth, MI (Part time) June 2022 – August 2025

Education

Bachelor's In **Computer Science** May 2028

- Relevant Coursework: BE2100 (**Python**), BE 1600 (**Python**), CSC 1100 (**C++**)

Bachelor's In **Electrical Computer Engineering** May 2028

- Relevant Coursework: BE 1200 (**Siemens NX**)

High School Diploma June 2024

- Relevant Coursework: AP Computer Science (**Java**), AP CSP (**Python**)

Skills

Programming: Python, Rust, C++, Elixir, Java, JavaScript, HTML, CSS, JSON, and MATLAB

Development: Linux, ProxMox, Ubuntu, Git, Docker, AWS, SQL, Django, SSH, Arduino, Nginx, Apache2, and Wireguard

Electrical CAD/3D Printing: KiCad, FreeCAD, Siemens NX, SolidWorks, CURA, and BambuLabs

Projects

Warrior Racing FSAE (Part time) February 2025 - January 2026

- As the head Data Specialist I utilize telemetry data for our F1 car, using both hardware and software to collect several major points of data and store them to .csv files that we then use to improve the car's performance.
- Since joining this position, I have over 10 x'ed the data points we collect and have improved turnaround speeds for improvements by 50% for many of our issues when making changes to the car.

Server Maintainer September 2024 - Present

- I personally maintain and **develop software** for myself and friends, including a chatroom service, ai chat system, and several game servers.
- All systems are run on bare metal that I own and **utilize full-stack workflows** to deploy.

Achievements

Eagle Scout

- Developed my ability to **break down large topics** into smaller, more teachable sizes and did all of the backend and **planning** to ensure my building was up to code and safe ensuring all building needs were met and that it would survive Michigan winters.

Additional

Volunteer Experience:

- **Over 100 hours** through Boy Scouts helping my community, including work for the Veterans of Foreign Wars, Order of the Arrow, and local food banks.
